

OWL News

New Agents in the OWL Network

We're pleased to bring you news of further expansion to the Ocean World Lines global network:

[Menzell](#), Frankfurt, Germany and [Ultramarine Cargo Services](#) in Bangladesh are our newest members.

Customer demand drives our network enhancement focus and the addition of Menzell and Ultramarine is a direct result of acting on feedback from discussions with our customers.

We're very pleased with the capabilities and opportunities these two companies bring, the local relationships that are already in place, and the focus on customer satisfaction that Menzell and Ultramarine are proud of.

The Ocean World Lines network incorporates more than 200 locations in 100 countries worldwide. For key information on locations and contacts please visit our [locations](#) website page.
